## Fast Facts

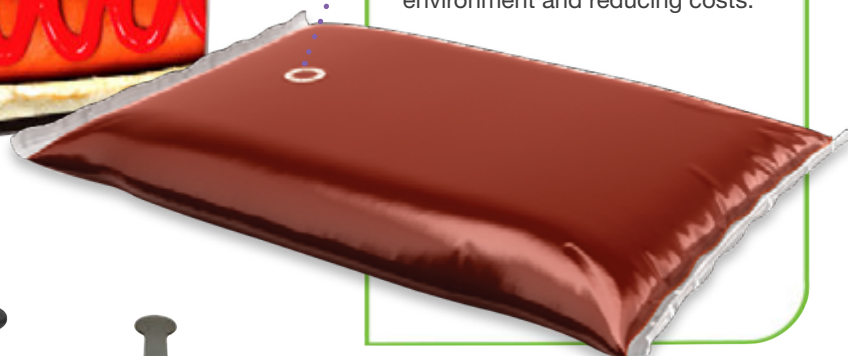

Express™ pouched condiment systems are sealed and sanitary, achieve excellent evacuation and have only a few parts for easy clean-up.

Systems work exclusively with a 1.5 gallon pouch with fitment.

## Did You Know?

A sealed, sanitary system is created when the pump pierces the pouch fitment.

Easy to store and use; pouches produce less solid waste than other packaging, helping the environment and reducing costs.

## Why Choose Pouch Dispensing?

### Cost Savings

Less wasted product due to high evacuation – up to 98%.

### Reduce Risk of Contamination

Pump creates a sealed, sanitary system when it pierces the pouch fitment.

### 40% Less Storage Space

Pouches also produce less solid waste than other packaging, helping the environment and reducing costs.
